Training/Team Building Meetings

Training meetings and Bible Studies will be scheduled in the near future. These meetings will cover raising financial support, cultural and language introduction, packing tips, and other logistics. Most importantly, these meetings provide the opportunity for the team to get to know each other better and to make sure we're all one in spirit and in purpose

Preliminary Expense Estimate

This could vary by as much as \$200 either way, depending upon the number of people on the team. Expenses can be paid through a combination of personal funds, financial sponsors, personal fundraising,

and/or support from the Ivy Creek Missions Team. We have historically seen and we continue to believe that whom God has join Him in this work, God will enable, financially and otherwise. Raising financial support training will be covered in our first team meeting.
